**LCB File No. R105-19**

EXPLANATION – Matter in *italics* is new; matter in brackets ~~[omitted material]~~ is material to be omitted.

AUTHORITY: §§1-5, NRS 640A.110 and 640A.180.

A REGULATION relating to occupational therapy; requiring a licensee to provide notification to the Board of Occupational Therapy after obtaining employment or changing his or her employment status; revising provisions relating to continuing education requirements; and providing other matters properly relating thereto.

**Legislative Counsel's Digest:**

Existing law requires the Board of Occupational Therapy to regulate the practice of occupational therapy in this State. (NRS 640A.110) Existing law further requires the Board to adopt regulations relating to the issuance and renewal of licenses to practice occupational therapy. (NRS 640A.180)

**Section 1** of this regulation requires a licensee to notify the Board not later than 30 days after obtaining employment or changing his or her employment status.

Existing regulations provide that a standard license issued by the Board expires 2 years after the date on which the license was issued. (NAC 640A.050) Existing regulations also: (1) provide that an expired standard license may be reinstated within 5 years after the expiration of the license; and (2) require a person to satisfy certain requirements before he or she is able to reinstate an expired standard license, including providing proof of the completion of 12 hours of continuing education within the year immediately preceding the request for reinstatement. (NAC 640A.055) **Section 2** of this regulation instead requires a person to provide proof of the completion of 24 hours of continuing education within the 2-year period immediately preceding the request for reinstatement.

Existing regulations generally require a person with a standard license to complete at least 12 hours of continuing education per year. If a person obtains more than 12 hours of continuing education in a year, the person is authorized to request that the Board carry over not more than 10 hours to apply towards the person's continuing education for the following year.

(NAC 640A.070) **Section 3** of this regulation instead: (1) requires a person to complete at least 24 hours of continuing education per biennial renewal cycle; and (2) authorizes a person to carry over not more than 10 hours towards the person's continuing education for the following biennial renewal cycle without being required to make such a request to the Board.

Existing regulations exempt a person who obtains a standard license within 12 months of graduation from certain accredited educational programs that include a fieldwork program from any continuing education requirements within the first year of obtaining the license. (NAC 640A.070) **Section 3** instead requires such a person to obtain 12 hours of continuing education in order to renew the license for the first time.

Existing regulations set forth the activities that qualify as continuing education, including certain supervision of fieldwork. (NAC 640A.090) **Section 4** of this regulation revises the requirements for the amount of continuing education that can be earned depending on the level of fieldwork supervision that is completed.
